## INTERNATIONAL CBRNe MASTER COURSES

Chemical, Biological, Radiological, Nuclear and explosive

Department of Industrial Engineering and School of Medicine and Surgery

### International Master Courses in “PROTECTION AGAINST CBRNe EVENTS”

The evolution and increase in Safety and Security threats at an international level place remarkable focus on the improvement of the emergency systems to deal with crisis, including those connected to ordinary and the non-conventional events (Chemical, Biological, Radiological, Nuclear, and explosives).

In every industrial Country there are multiple entities with specialized teams in very specific fields, but the complexity of the events requires professionals that not only have specific know-how, but also expertise in the relevant areas.

Given the global interest in these issues, the Department of Industrial Engineering and the Faculty of Medicine and Surgery of the Tor Vergata University organize the international Master Courses in “Protection against CBRNe events”: I Level Master Course in “Protection against CBRNe events” (120 ECTS) and II Level Master Course in “Protection against CBRNe events” (60 ECTS). These courses aim at providing attendees with comprehensive competences in the field of CBRNe Safety and Security, through teaching and training specifically focusing on real needs.

The creation of the “Click & Read” newsletter, that connects directly to the International CBRNe Master website simply clicking on the blue titles of each news, would be a monthly appointment about the main news around International CBRNe Master Courses... and more!

Enjoy!!!

### [03.19.2015 - II level Master Course: Conclusive Table Top Exercise](#)

On the 16th, 17th and 18th of March, the students of the II level Master Course in "Protection Against CBRNe events" participated to the Table Top Exercise organized in collaboration with the Italian Department of Italian Department of Firefighters, Public Rescue and Civil Defense, the Italian Department of Public Security, and the Italian Ministry of Defence. This activity sets the conclusion of their training path, before the final dissertation.

The exercise asked the trainees to "perform" as decision makers and play, simultaneously, as the actors involved in the response to a CBRN event (Prefect, Questore, Commander of the Fire Brigades, ...) The TTX aimed at stimulating a proactive and incisive crisis management, to overcome CBRN emergency situations.

The Directive Board of the International Master Courses in protection against CBRNe events owes a special thank to...

### [03.04.2015 - Proposal for the Integration of the EU Host Nation Guidelines](#)

We are proud to announce that the Proposal for the Integration of the EU Host Nation Guidelines is now available for download at:

[http://cbrn.netseven.it/?page\\_id=98](http://cbrn.netseven.it/?page_id=98)

The Proposal aims at integrating the EU HNSG with specific CBRN guidelines and is one of the outcomes of the Project “CBRN Integrated Response Italy” developed in collaboration with Scuola Superiore Sant’ Anna and Corpo Nazionale dei Vigili del Fuoco.

The Project is a starter measure to build...
