

Università di Roma Tor Vergata

INTERNATIONAL CBRNe MASTER COURSES

Chemical, Biological, Radiological, Nuclear and explosive

Department of Industrial Engineering and School of Medicine and Surgery

1st Announcement

2nd International CBRNe Workshop "IW CBRNe 2015"

***"CBRNe: new technologies, new strategies,
new approaches to reduce the risk"***

The workshop addresses current CBRNe risk scenarios, focusing on:

- *How the European countries are facing DAESH threats during the economic crisis;*
- *The use of chemical agents to offend and threaten;*
- *New civil and military tools to face CBRNe risk;*
- *The influence of the global political situation on the evolution of non-conventional events;*
- *Medicine and Biology to support a prompt CBRNe response;*
- *Research, didactic and training: the real solutions to reduce risks*
