International Master Courses in “PROTECTION AGAINST CBRNe EVENTS”

The evolution and increase in Safety and Security threats at an international level place remarkable focus on the improvement of the emergency systems to deal with crisis, including those connected to ordinary and the non-conventional events (Chemical, Biological, Radiological, Nuclear, and explosives).

In every industrial Country there are multiple entities with specialized teams in very specific fields, but the complexity of the events requires professionals that not only have specific know-how, but also expertise in the relevant areas.

Given the global interest in these issues, the Department of Industrial Engineering and the Faculty of Medicine and Surgery of the Tor Vergata University organize the international Master Courses in “Protection against CBRNe events”: I Level Master Course in “Protection against CBRNe events” (120 ECTS) and II Level Master Course in “Protection against CBRNe events” (60 ECTS). These courses aim at providing attendees with comprehensive competences in the field of CBRNe Safety and Security, through teaching and training specifically focusing on real needs.

The creation of the “**Click & Read**” newsletter, that connects directly to the International CBRNe Master website simply clicking on the blue titles of each news, would be a monthly appointment about the main news around International CBRNe Master Courses... and more!

Enjoy!!!

[07.07.2015 - CBRNe Master Courses meet WL Gore](#)

Wednesday, July 8th at 3.00 PM.

In the meeting room at the Department of Industrial Engineering of the University of Rome Tor Vergata, the Directive Board of the Master Courses in Protection from CBRNe events will meet representatives of the company WL GORE (USA).

An important meeting to enhance the synergy between academia and industries.

[07.05.2015 - Emerging and Re-emerging diseases Workshop](#)

Great success for the workshop

NEW AND OLD BIOLOGICAL AGENTS AND THE RISK RELATED TO THE FIRST AID DURING EMERGENCIES

which was held Friday, July 3 at Arpino (Frosinone). The seminar, taught by Biologist and Experts in the CBRNe field -including some teachers at the NATO School in Oberammergau (Germany)- has seen among the participants several first responders and emergency workers, as well as staff of the Ministry of Defense (Italian Army and Carabinieri).

Commendable and successful, this event aims to be the beginning of a progressive contact between the academic world and the local realities, from which give rise to relationships of effective collaboration.

[06.18.2015 - Master CBRNe @ Scuola NBC Rieti](#)

June 18, 2015 the Students of the II Level Master Course visited the "Interforces School for NBC Defense" in Rieti, where they had the opportunity to follow training activities in the CBRN field.

The Directive Board of The CBRN Master wants to thank the Minister of Defense and the Interforces School for NBC Defense (Scuola NBC di Rieti) for its precious collaboration and for the unique opportunities given to such an academic course.

We are glad and proud to work with You!

[06.16.2015 - New Scientific Paper Published!!!](#)

It is a great pleasure announce that the paper:

["COMPARISON OF THREE SAMPLE PREPARATION METHODS FOR ANALYSIS OF CHEMICAL WARFARE AGENT SIMULANTS IN WATER"](#)

has been published on the scientific journal:

Malaysian Journal of Analytical Sciences, Vol 19 No 3 (2015): 603 - 610.

This journal is index on SCOPUS.

This is another product of the collaboration between students and Military, Public and Private entities cooperating in the Master.
