

# SICC 2017 | OVERVIEW

Rome, May 22-23-24, 2017

Program & informations updated on 05 April 2017

<b>ABOUT SICC 2017</b>	<b>2</b>
<b>SCIENTIFIC PAPERS PUBLICATIONS</b>	<b>3</b>
<b>SCIENTIFIC COMMITTEES</b>	<b>4</b>
<b>SICC 2017 PROGRAMME TIMELINE</b>	<b>8</b>
<b>OPENING PLENARY SESSION &amp; KEYNOTE SPEAKER</b>	<b>9</b>
<b>MONDAY, 22 MAY 2017</b>	
SESSION 1 - Emergency system and solutions	10
SESSION 2 - Modeling and simulation, diffusion and dispersion	13
SESSION 3 - Education and Training	15
SESSION 4 - CBRNE policies, international legal and economic framework	17
<b>TUESDAY, 23 MAY 2017</b>	
SESSION 5 - Medical Management and First AID	20
SESSION 6 - Decision Support System (DSS)	22
SESSION 7 - Cyber security, CBRNE intelligence, CBRNE Forensic and critical infrastructures	24
SESSION 8 - Emergency Communication and psychology	26

<b>WEDNESDAY, 24 MAY 2017</b>	
SESSION 9 - CBRNE-related geopolitical issues	28
SESSION 10 - CBRNE centers of excellence - COE	30
SESSION 11 - Biological and Chemical Safety and Security, Protection and Decontamination	32
SESSION 12 - Detection and Identification	35
<b>POSTER SESSION 1</b>	<b>39</b>
<b>POSTER SESSION 2</b>	<b>42</b>
<b>CLOSING SESSION</b>	<b>44</b>

# ABOUT SICC 2017

SICC 2017 will be the first event of its kind involving the safety & security community and stakeholders involved in the prevention and mitigation of Chemical, Biological, Radiological, Nuclear and explosives events, and represents the natural development of the long-standing experience achieved in the field of CBRNE education and training by the **"International Master Courses in Protection against CBRNE Events"** ([www.mastercbrn.com](http://www.mastercbrn.com)) of the University of Rome "Tor Vergata".

The event organizational management has been assigned to the non-profit association **HESAR - Health Safety Environmental Research Association Rome** ([www.hesar.it](http://www.hesar.it)). Please scroll down the [www.sicc2017.com](http://www.sicc2017.com) homepage to learn more about who we are and our experience. Here a brief summary of the exceptional features that make SICC 2017 a unique opportunity. Also, please find the latest Announcements in PDF at <https://www.sicc2017.com/downloads/>.

The world of CBRNE today mainly concerns the military experts, the specialized operators, and the industry. However, our vision is also to promote the spread of education on CBRNE beyond its traditional boundaries: the **CBRNE should become an academic scientific discipline**. We strongly believe in "Science as the first countermeasure for CBRNE and Cyber threats", in order to increase the information, awareness, preparedness and resiliency. The main difference between the SICC 2017 conference and the other conferences on CBRNE is the **production of scientific papers**.

Also, do not miss the opportunity to discover Rome and its beauties! Take the advantage of participating in the **SICC 2017 Special Activities** we have arranged for you and get the best out of your journey. Please check <https://www.sicc2017.com/travel-accommodation/>.

Do not hesitate to contact the Local Organizing Committee for further information at [sicc2017@sicc2017.com](mailto:sicc2017@sicc2017.com).

# SCIENTIFIC PAPERS PUBLICATION

**Enhancing CBRNE safety & security: Proceedings of the SICC 2017 Conference.  
Science as the first countermeasure for CBRNE and Cyber threats**

Oral and poster contributors to SICC 2017, after Abstract approval by the SICC 2017 Scientific Committee, are invited to develop their work into **full papers (max 8 pages) that will be published in the SPRINGER CONFERENCE PROCEEDINGS BOOK with an ISBN CODE.**

Full papers will be **peer reviewed** by the SICC 2017 Scientific Committee and other experts identified by the Committee. Accepted papers will be submitted by Springer for **INDEXING IN SCOPUS.**

Also, papers will be indexed in Google Scholar, Index Copernicus, Academic J Database, Open J Gate, Electronic Journals Library, RefSeek, SciLit.

Selected papers from SICC 2017 conference will be published by Springer in **The European Physical Journal Plus - EPJ Plus (Impact Factor 1.521),**

indexed in:

SCOPUS, Science Citation Index, Science Citation Index Expanded (SciSearch), Journal Citation Reports/Science Edition, Astrophysics Data System (ADS), Chemical Abstracts Service (CAS), Google Scholar, Current Contents/Physical, Chemical and Earth Sciences, INSPIRE, OCLC, SCImago, Summon by ProQuest.

**THIS IS SUCH A UNIQUE OPPORTUNITY TO PUBLISH IN A HIGH-IMPACT JOURNAL.**

Also, remember that all other contributors are invited to develop their work into papers that will be published in the **Springer Conference Proceedings Book** with an **ISBN code**, and will be submitted by **Springer** for indexing in **Scopus.**

# SCIENTIFIC COMMITTEES

**President of the International Scientific Committee**  
**Ambassador Bonnie D. Jenkins**  
 U.S. Department of State  
 – Bureau of International Security and Nonproliferation –  
 Coordinator for Threat Reduction Programs (ISN/TR)

**President of the National Scientific Committee**  
**Senator Linda Lanzillotta**  
 Vice President of the Italian Senate (Vicepresidente del Senato della Repubblica)

## INTERNATIONAL

**Lt. Col. Bernd Allert**  
 Head/Doctrine and Concept Development Section – Joint CBRN Defence Centre of Excellence (JCBRND-COE), Vyškov/CZE

**H. E. Fahad Alruwaily**  
 Minister and Secretary General of the Saudi National Authority for the Implementation of Chemical and Biological Weapons Convention (Saudi Arabia)

**Gen. Faisal Al-Shoubaki**  
 Director of the Jordan General Intelligence Department (Jordanian Armed Forces), Advisor to His Majesty the King for National Security Affairs

**Gen. B. Sossio Andreottola**  
 Head of the Interforce NBC School of the Italian Defence General Staff (Comandante della Scuola Interforze per la Difesa NBC dello Stato Maggiore della Difesa)

**Prof. Paul Arbon**  
 Director of the Torrens Resilience Institute, Flinders University, Adelaide, Australia

**Dr. Cornelius Bartels**  
 Robert Koch Institute – Berlin, Germany

**Amm. Isp. Capo Osvaldo Brogi**  
 Head of the Italian Naval Armaments Corp (Capo di Corpo delle Armi Navali)

**Ten.Gen. Ing. Francesco Castrataro**  
 Head of the Italian Army Engineers Corp, Terrestrial Armaments Director (Capo di Corpo degli Ingegneri dell'Esercito, Direttore degli Armamenti Terrestri)

**Maria Rita Gismondo**  
Associate Professor in  
Microbiology at University of  
Milano

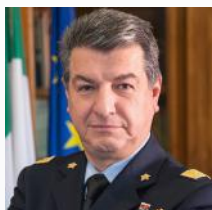

**Alan Grimmer**  
INTERPOL – Coordinator of the  
CBRNE Sub-Directorate

**Dr. Amer Hosin**  
Senior Consultant and main  
Adviser of the Emergency and  
Public Safety Department, Abu  
Dhabi Police GHQ, United Arab  
Emirates

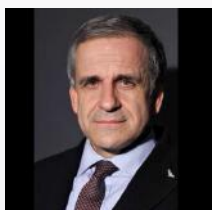

**Dr. Martin Krottmayer**  
Senior Officer – Nuclear  
and radiological Emergency  
Preparedness, International  
Federation of Red Cross

**Gen. Isp. Capo Francesco  
Langella**  
Head of the Italian Air Force  
Engineers Corp (Capo di Corpo  
del Genio Aeronautico)

**Amm. Isp. Capo Marco  
Manfredini**  
Head of the Italian Marine  
Engineers Corp (Capo di Corpo  
del Genio Navale)

**Prof. Maurizio Martellini**  
University of Insubria – Associate  
Professor of Physics

**Amm. Isp. Capo Enrico Mascia**  
Head of the Italian Health Marine  
Corp (Capo di Corpo Sanitario  
della Marina Militare)

**Gen. D. A. Fabio Molteni**  
Head of the Test Flight Center  
of the Italian Air Force Logistic  
Command (Comandante della 1ª  
Divisione del Comando Logistico  
dell'Aeronautica Militare - Centro  
Sperimentale di Volo)

**Amb. Krzysztof Paturej**  
International Centre for Chemical  
Safety and Security (ICCSS).  
Titular in the Ministry of Foreign  
Affairs of the Republic of Poland.

**On. Gen. Domenico Rossi**  
Undersecretary of State at the  
Italian Ministry of Defence.

**Dr. Dieter Rothbacher**  
President of the International  
CBRNE Institute - ICI (Belgium),  
Director Operations of  
Hotzone Solutions Group BV  
(Netherlands).

**Prof. Enrico Sciubba**

University of Rome La Sapienza – Full Professor of Turbomachinery & Energy Systems

**Michael Thornton**

Team Leader of the European Commission Joint Research Centre (Ispra)

**Gen. Isp. Capo Prof. Enrico Tomao**

Chief of Military Medical Services at the Italian Defence General Staff (Ispettore Generale della Sanità Militare – Stato Maggiore della Difesa)

**James M. Welch**

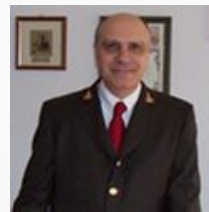

Elizabeth R Griffin Research Foundation – ERGRF (USA) – Executive Director

## NATIONAL

**Prof. Carlo Bellecci**

University of Rome Tor Vergata – Full Professor in Experimental Physics (Rtd.), President of the Scientific Committee of the International Master Courses in Protection against CBRNe Events.

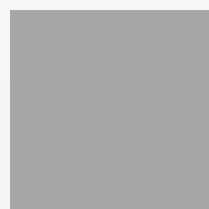

**Ing. Luciano Cadoni**

Italian National Fire Corps – Provincial Commander of Cagliari.

**Dr. Massimo Chiappini**

INGV (National Institute for Geophysics and Vulcanology) – Research Director, Head of Methodologies of Environmental Geophysics Unit.

**Lt. Col. Andrea Gloria**

Italian Ministry of Defence – NATO School of Oberammergau (Germany) – CBRN Defence Course Director and Instructor.

**Dr. Pasqualino Gaudio**

University of Rome Tor Vergata – Senior Researcher in Experimental Physics, Coordinator of the International Master Courses in Protection against CBRNe Events.

**Ten. Gen. Antonio Gucciardino**

National Association of Former Students of Nunziatella – President of Lazio Section.

**Prof. Sandro Mancinelli**

University of Rome Tor Vergata – Associate Professor of the Department of Biomedicine and Prevention.

**Adj. Prof. Donato Morea**

University of Rome Tor Vergata – Industrial Engineering Dept. – Adjunct Professor of Engineering Economy.

**Ing. Emilio Occhiuzzi**

Italian Ministry of Interior –  
National Fire Corps (CNVVF) –  
Director of General Directorate  
for Training.

**Prof. Leonardo Palombi**

University of Rome Tor Vergata  
– Full Professor and Director of  
the Department of Biomedicine  
and Prevention and of the  
International Master Courses in  
Protection Against CBRNe events

**Dr. Antonio Palucci**

ENEA – Head of Diagnostics and  
Metrology Laboratory.

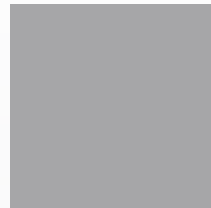

**Prof. Giovanni Rezza**

National Institute of Health (ISS)  
– Director, Dept. of Infectious,  
Parasitic and Immune-Mediated  
Diseases.

**Viceprefetto Vincenzo Rossi**

Italian Ministry of Interior –  
Vice-Director of the SSAI (The  
Interior Ministry School of  
Administration).

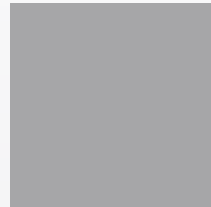

**Ten. Col. Franco Salerno**

Italian Ministry of Defence  
– Interforce School for NBC  
Defense.

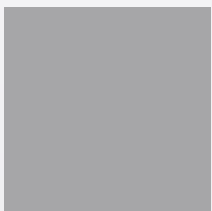

**Dr. Sandro Sandri**

ENEA – Director, Radiation  
Protection for Nuclear Fusion  
Plants and Large Accelerators  
Laboratory (IRP-FUAC).

**Dott. Vincenzo Trombadore**

Italian Ministry of Interior – State  
Police.

**Cons. Amb. Enrico Valvo**

Italian Ministry of Foreign Affairs  
and International Cooperation –  
Directorate General for Political  
Affairs and Security.

## SICC 2017 PROGRAMME TIMELINE

	MONDAY, 22 MAY	TUESDAY, 23 MAY	WEDNESDAY, 24 MAY	
8:30 - 9:00	Registration	Registration & Welcome Coffee	Registration & Welcome Coffee	
9:00 - 9:30			Keynote Lecture <b>Rothbacher</b> <b>(HotzoneSolutions)</b>	
9:30 - 10:00			OPCW SIDE EVENT Opening	Keynote Lecture TBD

# OPENING PLENARY SESSION

Monday, 22 May 2017

**On. Gen. Domenico Rossi (ITALY)**

Undersecretary of State at the Italian Ministry of Defence (Sottosegretario di Stato alla Difesa)

**Senator Linda Lanzillotta (ITALY)**

Vice President of the Italian Senate (Vicepresidente del Senato della Repubblica)

**Ambassador Bonnie Jenkins (USA)**

US Department of State, Bureau of International Security and Nonproliferation – Coordinator for Threat Reduction Programs ISN/TR

**Andrea Malizia (Italy)**

Researcher in Physics and Measures at the Department of Biomedicine and Prevention, University of Rome Tor Vergata (Italy)

## KEYNOTE SPEAKERS

### DAY ONE - Monday, 22 May

**Steve Johnson (USA) Adjunct Professor at the Georgetown University**

"The world's responder or teacher? Developing International Resilience"

**Ludy Suryantoro (Switzerland) Senior Advisor – High Level Government and External Relations, Office of Assistant Director-General, World Health Organisation**

### DAY TWO - Tuesday, 23 May

**Amb. Ahmet Üzümcü, Director General of the OPCW, Nobel Peace Prize 2013**

"Twenty years after the entry into force of the Chemical Weapons Convention: looking back and looking forward"

### DAY THREE - Wednesday, 24 May

**Dieter Rothbacher (THE NETHERLANDS) Hotzone Solutions Group BV**

"Training as a key-issue in case of CBRNE events"

# SESSION 1 - EMERGENCY SYSTEM AND SOLUTIONS

Monday, 22 May 2017 (14:00 - 18:30)

Subsequent to a Chemical, Biological, Radiological or Nuclear event, whether intentional or not, the importance of a rapid and correct response by the emergency management team is vital, in order to reduce the magnitude of the effects to a minimum and to save lives.

The correct response in such a crisis can only be achieved by following previously defined and well-rehearsed standard operating procedures, and a prompt and correct communication flow at both the strategic and operational levels.

A well-defined command and control workflow is the best basis for good management of such an emergency, both from a civilian and military standpoint, thus highlighting the duality approach in such an event.

The session is aimed at bringing together researchers and experts in the following fields:

- **Emergency Management**
- **Crisis Management**
- **Disaster Management**
- **Industrial Accidents**
- **Command and Control of CBRNE Events**
- **Civil Protection and Safety**

**CHAIRMAN | Steve Johnson**

Adj. Professor at the Georgetown University (USA)

**CO-CHAIRMAN | Bonnie D. Jenkins**

Coordinator for Threat Reduction Programmes ISN/TR, US Department of State, Bureau of International Security and Nonproliferation (USA)

**CO-CHAIRMAN | Ludy Parapancha Suryantoro**

Senior Advisor – High Level Government and External Relations, Office of Assistant Director-General, World Health Organisation (WHO). (Switzerland)

## ORAL PRESENTATIONS

**Stefano Marsella\*** (Invited Speaker) D. Pozzi, N. Sciarretta, M. Marzoli.

\*Director of Istituto Superiore Antincendi (ISA), Ministry of Interior, Department of Fire Brigades (Italy)

**CBRNe events and mass evacuation planning**

**Amb. Bonnie D. Jenkins** (Invited Speaker)

Coordinator for Threat Reduction Programs ISN/TR, US Department of State, Bureau of International Security and Nonproliferation (USA)

**Global partnership on CBRNE: a worldwide solution**

**Steve Johnson**

Adj. Professor at the Georgetown University (USA)

**Hazardous Investigations  
- bringing CBRN and other  
forensic challenges together**

**Ludy Parapancha Suryantoro**

Senior Advisor – High Level Government and External Relations, Office of Assistant Director-General, World Health Organisation (WHO) (Switzerland)

**Title TBD**

**Fabio Molteni**

ARMY CORPS GENERAL, Head of the Test Flight Center of the Italian Air Force Logistic Command (Comandante della 1ª Divisione del Comando Logistico dell'Aeronautica Militare - Centro Sperimentale di Volo)

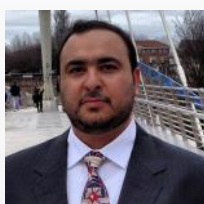

**Understanding Homemade  
Explosives (HMEs): the first  
step for enhanced security**

**Louis Gauntlett (1), G. J. Rubin (1) & R. Amlot (2).**

(1) Researcher, Department of Psychological Medicine, Weston Education Centre (UK) (2) Public Health England, Applied Psychological Sciences, Emergency Response Dept, Health Protection Directorate, Public Health England.

**What Predicts Behaviour  
Immediately Following a  
Deliberate Radiation Release?**

**Ibrahim Al Marzouqi**

Head of Strategy Department, Emergency and Public Safety Department, ADP, GHQ (United Arab Emirates)

**Community Awareness in  
Disaster and Emergency  
Settings: A Case Study of the  
United Arab Emirates.**

**Carlos Rojas-Palma (1), F. Steinhäusler (2), P. Kuça (3)**

(1) Belgian Nuclear Research Center, Environment, Health and Safety Institute, (Belgium) (2) Department Chemistry and Physics of Materials, Paris-Lodron University of Salzburg, Hellbrunnerstr. (Austria) (3) National Radiation Protection Institute, Prague, (Czech Republic)

**On the reconstruction of a  
radiological incident and its  
possible implications for an  
R-type terror attack**

**L. Pascual (1), L. Amigo (1), M. Fernández (1) and Javier Quiñones Diez (1)**

CIEMAT, Subdirector General of Safety and Refurbishment Facility, Madrid (Spain)

**First measurement has gotten  
off using fog as CBRN counter.  
Nuclear and Radiological  
scenario**

**Amer Hosin**

Professor of Trauma Psychology & Child Psychiatry  
Senior Academic Advisor, Emergency and Public Safety Department, ADP, GHQ (United Arab Emirates)

**Emergency in Disasters and the Needs of Displaced Population**

**Mariana Carpes (1), K. Pantaleão (1)**

Prof., Dr at Escola de Comando e Estado-Maior do Exército (ECEME), (Brasil)

**Brazil's CBRNe defense system and the challenges to keep the operational capability acquired over the last decade**

## SESSION OPEN

**Submit your Contribution to SICC 2017 conference. Join this session!**

**Submit your abstract today!**

[Click here to be redirected to the SICC 2017 website.](#)

## SESSION 2 - MODELING AND SIMULATION, DIFFUSION AND DISPERSION

Monday, 22 May 2017 (14:00 - 18:30)

CBRNE events may disperse harmful agents into the air, water or onto the soil. The prediction of where this material may be is essential for prevention, response and to reduce the impact of the event. In order to achieve these goals, Modelling and Simulation is a useful tool that can be used to estimate both the location and concentration of deposited material.

The use of mathematical models as a basis for simulations has been applied to simulate the dispersion of harmful substances, such as chemical compounds, radioactive materials, as well as biological warfare agents. By coupling clinical models to numerical simulations, it is possible to get accurate information about the potential effects on human health following a CBRN event.

The session is aimed at bringing together researchers and experts in the following fields:

- **Modelling and Simulation**
- **Analysis and Evaluation of CBRNE Threats**
- **CBRNE Hazard Simulation**
- **Diffusion and Dispersion Models**
- **Software and Tools for Safety and Security**
- **Environmental Contamination**
- **CBRNE Risk Mitigation**
- **CBRNE Risk Scenarios**

### **CHAIRMAN | Enrico Sciubba**

Full Professor in Turbomachinery and Energy System, University of Rome La Sapienza (Italy)

### **CO-CHAIRMAN | Marco Biagini**

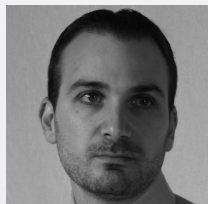

Lieutenant Colonel, NATO Modelling & Simulation Centre of Excellence (Italy)

### **CO-CHAIRMAN | Andrea D' Ambrogio**

Associate professor of Software and Systems Engineering, Department of Enterprise, University of Rome Tor Vergata

## ORAL PRESENTATIONS

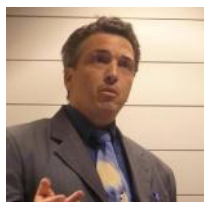

**Marco D' Arienzo (1)** (Invited Speaker),  
Biancotto S. (2), Malizia A. (3)  
(1) Senior Researcher, ENEA, Casaccia  
Research Centre (Italy)  
(2) ENEA, Casaccia Research Centre  
(Italy)  
(3) Department of Biomedicine and  
Prevention, University of Rome Tor  
Vergata

**Radiation exposure of the  
population following a dirty  
bomb attack in a large  
metropolitan area**

**Enrico Sciubba** (Invited Speaker)  
Full Professor in Turbomachinery and  
Energy System, University of Rome La  
Sapienza (Italy)

**Numerical simulation as a tool  
to prevent CBRNE emergency**

### Marco Biagini

Lieutenant Colonel, NATO Modelling & Simulation Centre of Excellence (Italy)

**Modeling and simulation tools for detection of radioactive material used in dirty bombs**

### Andrea D'Ambrogio

Associate professor of Software and Systems Engineering, Department of Enterprise, University of Rome Tor Vergata (Italy)

**Emergency prevention through the use of numerical simulation**

### Jean-François Ciparisse

Researcher Department of Industrial Engineering, University of Rome Tor Vergata (Italy)

**Emergency prevention through the use of numerical simulation**

**Gianmarco Contessa (1)**, Guardati M. (2), Poggi C. (2), Sandri S. (2), D'Auria M.C. (3), Genovese E.(2), Cannatà V.(2), M. D'Arienzo (2)

(1) Senior Researcher, ENEA, Casaccia Research Centre (Italy) (2) ENEA, Casaccia Research Centre (Italy) (3) International Master Courses in Protection Against CBRNe events, University of Rome Tor Vergata.

**The impact of Climate Change on radiological emergencies: a case study in Italy**

**John G. Bartzis (1)**, G. C. Efthimiou (2), S. Andronopoulos (2)

(1) Professor at University of Western Macedonia, Dept. of Mechanical Engineering, Sialvera & Bakola Str., 50100, Kozani, Greece.

(2) Environmental Research Laboratory, INRASTES, NCSR Demokritos, Patriarchou Grigoriou & Neapoleos Str., 15310, Aghia Paraskevi, Greece.

**Short Exposure Times for Airborne Hazardous Releases in Urban Environments**

**Arturo Buscarino (1)**, L. Fortuna (1), M. Frasca (1)

(1) DIEEI, University of Catania, (Italy)

**Epidemic spreading in populations of moving individuals**

## SESSION OPEN

**Submit your Contribution to SICC 2017 conference. Join this session!**

## Submit your abstract today!

[Click here to be redirected to the SICC 2017 website.](#)

## SESSION 3 – EDUCATION AND TRAINING

Monday, 22 May 2017 (14:00 – 18:30)

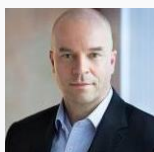

The evolution of and increase in Safety and Security threats requires an improvement to the emergency systems to deal with crisis, including those connected to ordinary and non-conventional events. In every industrial country there are multiple entities with highly-specialized teams in very specific fields, but the complexity of the events requires professionals that not only have specific know-how, but also expertise in the relevant areas. To face an emergency properly highly specialized first responders and CBRNE advisors to the decision makers require comprehensive competences in the field of CBRNE safety and security. Active learning is a key element to CBRNE awareness and preparedness and represents two critical factors that need to be improved.

The session is aimed at bringing together researchers and experts in the following fields:

- **Active Learning**
- **Education Methodologies**
- **CBRNE Awareness and Preparedness**

**CHAIRMAN | Frank Reiner**  
President of The Chlorine Institute (USA)

**CO-CHAIRMAN | Dieter Rothbacher**  
Co-owner of the Hotzone Solutions Group BV (The Netherlands)

**CO-CHAIRMAN | Andrea Malizia**  
Researcher in Physics and Measures at the Department of Biomedicine and Prevention, University of Rome Tor Vergata (Italy)

## ORAL PRESENTATIONS

**Frank Reiner** (Invited Speaker)  
President of The Chlorine Institute (USA)

**The Sum is Greater than the Parts: The Chlorine Institute Approach to Emergency Response Training**

**Dieter Rothbacher** (Invited Speaker)  
Co-owner of the Hotzone Solutions Group BV (The Netherlands)

**Training as a key-issue in case of CBRNE issues**

#### **Andrea Malizia**

Researcher in Physics and Measures at the Department of Biomedicine and Prevention, University of Rome Tor Vergata (Italy)

**Actions and efforts to turn CBRNE in an Academic Discipline**

#### **Amer Hosin**

Senior Consultant and main Adviser of the Emergency and Public Safety Department, Abu Dhabi Police GHQ (United Arab Emirates)

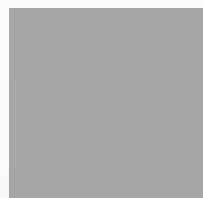

**The added value of continual professional development (CPD) and training programmes for staff working in emergency settings**

#### **Angelo Minotti**

Researcher and DUAL-USE expert, University of Rome La Sapienza (Italy)

**Academic outreach on counterproliferation: the Dual Use Space System technical course**

#### **Andrea Gloria**

Lt. Col. (OF-4), ITA-A, Department Director PROT, Protection Department, NATO SCHOOL, Obberammergau, Germany, (Italy)

**Proposal of an innovative International Training Curriculum for advisors in emergencies and CBRNe events management**

#### **Giada Bellanca**

International Master Courses in Protection Against CBRNe events, University of Rome Tor Vergata

**Project and solution to fill the gap between professionals and population**

#### **Francesco Romanelli**

Full Professor of Nuclear Physics at the Department of Industrial Engineering, University of Rome Tor Vergata (Italy)

**The Master in Fusion Energy - opportunities for education and training in high-tech field**

#### **Roberto Fiorito**

Assistant Professor at the Department of Biomedicine and Prevention, University of Rome Tor Vergata (Italy)

**The importance of education to improve the maxi-emergency medical system**

## **SESSION OPEN**

**Submit your Contribution to SICC 2017 conference. Join this session!**

## **Submit your abstract today!**

[Click here to be redirected to the SICC 2017 website.](#)

## SESSION 4 - CBRNE POLICIES, INTERNATIONAL LEGAL AND ECONOMIC FRAMEWORK

Monday, 22 May 2017 (14:00 - 18:30)

CBRNE is a multidiscipline field, which requires a high level of commitment from law and policy makers to define sound political and legal instruments to effectively deal with the subject. The “old” threat represented by the military use of chemical, biological, radiological/nuclear agents has rapidly evolved due to a constantly changing world, compounded by cyber-related issues as well as technological and dual-use implications. Moreover, to guarantee the rapid movement of people and goods worldwide, there is a clear need for strong and easily applicable legal regimes. At the same time, CBRNE and Cyber threats have to be examined carefully from the economical perspective, since many assets may be the target of CBRNE or Cyber attack. Moreover, economic investigations represent a useful tool, and can provide additional information related to the illicit trade of CBRNE materials worldwide.

The session is aimed at bringing together researchers and experts in the following fields:

- **International legal frameworks governing CBRNE: gaps and opportunities**
- **Non-proliferation and disarmament regimes**
- **Economic analysis of CBRNE events**
- **International legal framework governing Cyber related issues: gaps and opportunities**
- **Economic analysis of Cyber threats**

**CHAIRMAN | Ralph Trapp**

International Disarmament Consultant, Chessenaz (France)

**CO-CHAIRMAN | Donato Morea**

Adj. Professor at the Department of Enterprise, University of Rome Tor Vergata (Italy)

**CO-CHAIRMAN | Matteo E. Bonfanti**

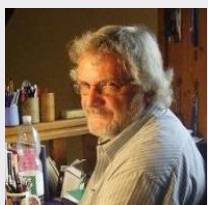

ETH Zürich, Senior Researcher at the Center for Security Studies (Switzerland)

## ORAL PRESENTATIONS

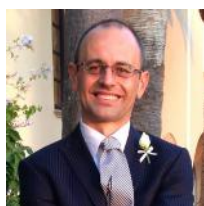

**Alfonso Pecoraro Scanio** (Invited Speaker)  
President, Fondazione UniVerde (Italy)

**Title TBD**

**Ralf Trapp** (Invited Speaker)  
International Disarmament Consultant,  
Chessenaz (France)

**CBRNe - legal framework or  
legal patchwork?**

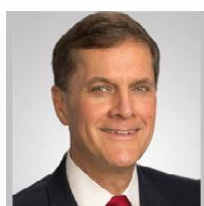

**Donato Morea (1)**, L.A. Poggi (2), V. Tranquilli (3)  
 (1) University of Rome Tor Vergata, Department of Industrial Engineering, Via del Politecnico, 1, 00133, Rome, (Italy)  
 (2) University of Rome Tor Vergata, Department of Industrial Engineering, Via del Politecnico, 1, 00133, Rome, (Italy)  
 (3) Order of Engineers of the Province of Rome, Piazza della Repubblica, 59, 00185, Rome, (Italy)

**Economic impact of biological incidents: a literature review**

**Matteo E. Bonfanti**  
 ETH Zürich, Senior Researcher at the Center for Security Studies (Switzerland)

**"One Single Official Voice or Multiple Voices?" Ensuring Regulatory Compliance while Improving Effective (CBRN) Emergency or Crises Communication**

**Jonathan Brewer**  
 Visiting Professor, Centre for Science and Security Studies, King's College London (UK)

**The financing of proliferation of weapons of mass destruction USA**

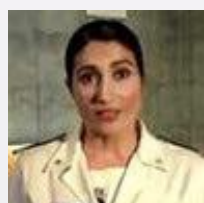

**Zabta Khan Shinwari (1)**, S. Hameed (2), S. Tayyab (2), A.T. Khalil (2), M. Ali (2)  
 (1) Professor at the Department of Biotechnology, Quaid-i-Azam University, Islamabad, Pakistan / Pakistan Academy of Sciences. (Pakistan) (2) Department of Biotechnology, Quaid-i-Azam University, Islamabad, (Pakistan)

**Assessment of the dual use research concerns in life sciences; rethinking the future**

**Eric Myjer**  
 Professor of Conflict and Security Law, School of Law, Utrecht University, the Netherlands; Director Centre for Conflict and Security Law. (The Netherlands)

**Arms control law as the common legal framework for CBRN security**

**Amalia Alberico**  
 (1) Italian Coast Guard Headquarters, Safety of Navigation department- Maritime Security Office, Rome- (Italy)

**The International Maritime Security Legislation and Future Perspectives for Italian Ports**

**Hermann Alex Lampalzer**  
 Political Affairs Officer, Biological Weapons Convention Implementation Support Unit, UN Office for Disarmament Affairs (Geneva Branch), Palais des Nations, Geneva (Switzerland)

**The Biological Weapons Convention at a crossroads: The way ahead after the Eighth Review Conference**

**Arianna Frascchetti**

Senior Legal Officer , Organisation for the Prohibition of Chemical Weapons (OPCW), Office of the Legal Adviser, The Hague, (The Netherlands)

**The OPCW's mandate related to chemical safety and security**

**Scott Spence**

VERTIC, National Implementation Measures Programme, Development House, London, (United Kingdom)

**Methodology for Assistance in CBRN Legislation and Implementation**

**Silvia Venier**

Scuola Superiore Sant'Anna, Institute of Law, Politics, Development (DIRPOLIS), Pisa, (Italy)

**A Human Rights approach to protection from CBRN risks**

**Francesca Capone**

Research Fellow in Public International Law and Coordinator of the Master in Human Rights and Conflict Management, Scuola Superiore Sant'Anna (Italy)

**The EU Response to the CBRN Terrorism Threat: A Critical Overview of the Current Legal Framework**

A. Coviello (1) and **Giovanni Di Trapani (1)**  
(1) National Research Council (CNR) Institute for Research on Innovation and Services for Development (Italy)

**The Risk Management and the transfer to the insurance market**

# SESSION 5 - MEDICAL MANAGEMENT AND FIRST AID

Tuesday, 23 May 2017 (13:30 - 18:00)

First aid can be one of the main bottlenecks of emergency response; therefore, an effective Medical Management is key to the response in case of CBRNE events. Health services are a critical infrastructure that has to be prepared and resilient to CBRNE incidents and attacks.

This means having plans, procedures, equipment, and trained personnel, on the one side, and a smooth cooperation among first responders and stakeholders on the other. An increasing number of research and innovation projects addressing the issue of medical management and first aid in the framework of CBRNE events, testifies to the growing need to find new and smart solutions in terms of materials, equipment, procedures, communication and general management.

The session is aimed at bringing together researchers and experts in the following fields:

- **Medical management and the role of medical management in CBRNE safety and security**
- **Medical countermeasures: vaccines, antimicrobial and antiviral drugs, blood products and antibodies, devices including diagnostic tests**
- **Triage**
- **Personal Protective Equipment (PPE)**
- **Collective Protective Equipment (CPE)**
- **Decontamination**
- **Diagnostic and Surveillance**
- **Biological emerging and re-emerging threats and Epidemiology**
- **Dual-use**
- **Chemical, Biological, Radiological threats to medical management**
- **Hazardous materials – hazmat**
- **Innovative materials for medical applications**

**CHAIRMAN | Giovanni Rezza**

Research Executive Director, Italian Health Institute (Italy)

**CO-CHAIRMAN | Stef Stienstra**

Strategic consultant in biomedical science, Commander of the reserve of the Royal Dutch Navy (The Netherlands)

**CO-CHAIRMAN | Ioannis Galatas**

BrigGen. (Rtd), MD Consultant in Allergy and Clinical Immunology, Medical/ Hospital/Ops CBRNE Planner/instructor Manager @ CBRN Knowledge Center, International CBRNE Institute (Belgium)

## ORAL PRESENTATIONS

**Leonardo Palombi** (Invited Speaker)

Full Professor in Epidemiology and Director the Department of Biomedicine and Prevention, University of Rome Tor Vergata (Italy)

**International medical emergencies, terrorism and immigration**

**Ioannis Galatas** (Invited Speaker)  
BrigGen. (Rtd), MD Consultant in Allergy  
and Clinical Immunology, Medical/  
Hospital/Ops CBRNE Planner/instructor  
Manager @ CBRN Knowledge Center,  
International CBRNE Institute (Belgium)

**How to CBRNE-proof your  
hospital**

**Giovanni Rezza**  
Research Executive Director, Italian  
Health Institute (Italy)

**Italian Health Institute actions  
during biological maxi-  
emergencies**

**Stef Stienstra**  
Strategic consultant in biomedical science,  
Commander of the reserve of the Royal  
Dutch Navy (The Netherlands)

**Counter measures in  
CBRNe threats and medical  
consequence management  
both in a military and a civilian  
setting**

**Rachele Brancaleoni (1)**, D. Gui (2), S.  
Magalini (2), M. Foco (2), G. Capalbo (3),  
P.M. Soave (3)  
(1) Catholic University of Sacred Heart,  
Largo F. Vito, 1, Rome, Italy (2) Fondazione  
Policlinico Gemelli, Dept. of Emergency  
Surgery, Largo A. Gemelli, 8, Rome,  
Italy (3) Fondazione Policlinico Gemelli,  
Accident and Emergency Department,  
Largo A. Gemelli, 8, Rome, Italy

**Development of a CRN training  
course: the case of Gemelli  
hospital**

Gideon Waterman (1), Oren Milstein  
(1), **Amos Schupak (1)**, Itzhak Orion (2),  
Kenneth Kase (1)  
(1) Department of Research &  
Development, StemRad, Ltd., 6 Raoul  
Wallenburg St. 1st Floor Tel Aviv 6971905,  
Israel. (2) Department of Nuclear  
Engineering, Ben-Gurion University of the  
Negev. P.O.B.653, Beer-Sheva 84105,  
Israel

**Bone Marrow Selective  
Shielding Personal Protective  
Equipment to Mitigate  
Deterministic and Stochastic  
Radiation Effects for First  
Responders**

**Gordana Joksić**  
Biologist, PhD. Vinča Institute of Nuclear  
Sciences, M.Petrovića Alasa 12-14,  
11000 Belgrade, Department of Physical  
Chemistry (Serbia)

**The micronucleus test in  
radiation accidents**

**Roberto Fiorito (1)**  
(1) Assistant Professor at the Department  
of Biomedicine and Prevention, University  
of Rome Tor Vergata (Italy)

**Best practices in nuclear  
medicine. A proposal for Italy**

**SESSION OPEN**

**Submit your Contribution to SICC 2017  
conference. Join this session!**

**Submit your abstract today!**

# SESSION 6 - DECISION SUPPORT SYSTEM (DSS)

Tuesday, 23 May 2017 (13:30 - 18:00)

A Decision Support System (DSS) can be seen as both a tool to help the decision-making process in the aftermath of a CBRNE event, as well as a tool to optimize the planning and management of operations. Today, DSSs are essential instruments in coping with problems that may not have been identified in advance and are changing rapidly, or when dealing with large amounts of data. DSSs are interactive software-based systems intended to help decision makers to gather useful information from a combination of raw data, documents, and personal knowledge. Therefore, DSSs greatly assist the identification and solving of problems, hence the decision-making process. In this regard, DSSs can be extremely helpful when applied to CBRNE Prediction, Planning and Emergency Management.

This session is aimed at bringing together researchers and experts in the following fields:

- **Big Data**
- **Data Mining Applied to Safety & Security**
- **Software and Tools for Safety & Security**
- **CBRNE Events Prediction and Management**

**CHAIRMAN | Andrea Murari**  
Consortium Eurofusion-RFX CNR (UK)

**CO-CHAIRMAN | Jesús Vega**  
Head of Unit, CIEMAT Centro de Investigaciones Energéticas, Medioambientales y Tecnológicas, (Spain)

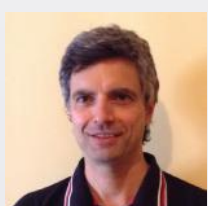

**CO-CHAIRMAN | Parag Chatterjee**  
Professor at the Universidad Tecnológica Nacional, Buenos Aires (Argentina)

## ORAL PRESENTATIONS

**Jesús Vega** (Invited Speaker)  
Head of Unit, CIEMAT Centro de Investigaciones Energéticas, Medioambientales y Tecnológicas, (Spain)

**Machine Learning Tools in Support of Classification Decision**

**Andrea Murari** (Invited Speaker)  
Consortium Eurofusion-RFX CNR (UK)

**Big data analysis as a tool to prevent and manage emergencies**

### **Parag Chatterjee**

Professor at the Universidad Tecnológica Nacional, Buenos Aires (Argentina)

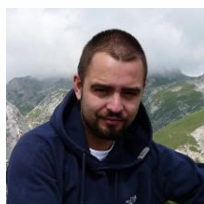

**Internet of Things - Redefining Healthcare**

### **Robin Singh Bhadoria**

Researcher at the Indian Institute of Technology Indore (India)

**Provisioning for Sensory Data using Enterprise Service Bus: A Middleware Epitome**

### **Thibaut Jombart**

Researcher at the Department of Infectious Disease Epidemiology, Imperial College London (France)

**The R Epidemics Consortium: building the next generation of statistical tools for outbreak response using R**

**Issa Kamar (1)**, Mohamad Toutayo (2), Parag Chatterjee (3), Leandro Cymberknop (3), Ricardo Armentano (4) (1) Professor at Arts Science and Technology University, Beirut, (Lebanon) (2) Arts Science and Technology University, Beirut, (Lebanon) (3) National Technological University (UTN.BA), Buenos Aires, (Argentina) (5) Favaloro University, Buenos Aires, (Argentina)

**Internet of Things in Healthcare – Application in Cardiovascular Emergencies**

**Ibtissam Khalfaoui (1)**, Amar Hammouche (2) (1) Mohammadia School of Engineers, department of Mechanical Engineering, Mohamed V University, Rabat, (Morocco). (2) PES, Research Team IMOSYS, department of Mechanical Engineering, Mohammadia School of Engineers, Mohamed V University, Rabat, (Morocco)

**Modeling and Optimization of the Regional Network of Health Emergency Services in Morocco**

**Jiayi Qi (1)**, Di Wu(1), Yan Ma(1) State Key Laboratory of NBC Protection for Civilian, Beijing, P. R. (China)

**Establishing the Advanced Technology Supporting System for CBRNE Defense Conversion**

## **SESSION OPEN**

**Submit your Contribution to SICC 2017 conference. Join this session!**

**Submit your abstract today!**

[Click here to be redirected to the SICC 2017 website.](#)

## SESSION 7 - CYBER SECURITY, CBRNE INTELLIGENCE, CBRNE FORENSIC AND CRITICAL INFRASTRUCTURES

Tuesday, 23 May 2017 (13:30 - 18:00)

Cybersecurity is becoming crucial, as more information and advanced technology is being made available in cyberspace. As recent events have demonstrated, cyberspace has to be considered the new theatre of warfare and has the potential to undermine the stability of a country.

New terms, such as cyberwarfare and cyberterrorism, were coined to better describe this threat and there is growing concern among governments, that they are not ready to fully face such an emerging menace. More critical infrastructure is being remotely controlled via software systems that, while increasing efficiency, expose new vulnerabilities. In this scenario, CBRNE Intelligence plays an extremely important role in preventing the malicious use of, an otherwise beneficial, asset.

This session is aimed at bringing together researchers and experts in the following fields:

- **CBRNE Intelligence**
- **Information Security**
- **Emerging Cyberterrorism Threats**
- **Critical infrastructures**

### **CHAIRMAN | Umberto Rapetto**

CEO of Human Knowledge as Opportunity (HKAO), Senior Partner at CYBERIUS (Italy), B. Gen. (Ret.) Italian Economic, Tax and Finance Police (Italy)

### **CO-CHAIRMAN | Ian Stubbs**

Inspector at the National CBRN Centre, UK Police (UK)

### **CO-CHAIRMAN | Roberto Setola**

Professor at the Università Campus Bio-medico di Roma, and Director of Master in Homeland Security (Italy)

## ORAL PRESENTATIONS

### **Umberto Rapetto** (Invited Speaker)

CEO of Human Knowledge as Opportunity (HKAO), Senior Partner at CYBERIUS (Italy), B. Gen. (Ret.) Italian Economic, Tax and Finance Police (Italy)

**Title TBD**

### **Roberto Setola** (Invited Speaker)

Professor at the Università Campus Bio-medico di Roma, and Director of Master in Homeland Security (Italy)

**How to evaluate the risk for interdependent Critical Infrastructures scenarios**

	<b>Nys Bart (1)</b> , Natalie Kummer (1), Peter De Bruyn (2), Jan Blok (2), Ed Van Zalen (2) (1) National Institute of Criminalistics and Criminology, Brussels, (Belgium) (2) Netherlands Forensic Institute, Laan van Ypenburg 6, P The Hague, (The Netherlands)	<b>Increasing Forensic Awareness with CBRNE Responders and CBRNE Awareness with Forensic Experts - a Pan-European Challenge</b>
	<b>Paolo Castelli</b> Ministry of Interior, Department of Fire Brigades (Italy)	<b>A review of the progress of early-warning crisis management systems for CBRNE attacks in high threat infrastructures</b>
	<b>Stephanie Meulenbelt</b> National Institute for Public Health and the Environment, Centre for Environmental Safety and Security (The Netherlands)	<b>Risk assessment methodology and CBRN-related threats</b>
	<b>Andrea Gloria</b> Lt. Col. (OF-4), ITA-A, Department Director PROT, Protection Department, NATO SCHOOL, Obberammergau, Germany, (Italy)	<b>CBRNe Intelligence</b>
	<b>John Hart</b> Stockholm International Peace Research Institute (SIPRI). (Sweden)	<b>The Role of Unmanned Autonomous and Semi-autonomous Platforms for OPCW verification and Investigations of Alleged Use</b>
	L. Faramondi, <b>Roberta Pellegrino</b> , R. Setola University Campus Bio-Medico of Rome (UCBM), Via Alvaro del portillo n21, Rome, (Italy)	<b>Analysis of Blast Impact Estimation in Industrial Plants</b>
	<b>Edoardo Cavalieri d'Oro</b> Italian National Fire Brigades, Milan Headquarters, Milano (Italy)	<b>Drones in the nearest future: ally or threat to CBRNe events?</b>

## SESSION OPEN

**Submit your Contribution to SICC 2017 conference. Join this session!**

## SESSION 8 - EMERGENCY COMMUNICATION AND PSYCHOLOGY

Tuesday, 23 May 2017 (13:30 - 18:00)

Clear communication strategies and effective psychological approaches are significant aspects to improve the quality of the prevention and the management of CBRNE events. Reducing the effects and consequences on the population as well as operators in the field. By definition first responders are normally the first to arrive on the scene, and are therefore in direct contact with the victims of a CBRNE event as well as with the components of other teams on the hotspot.

A sound knowledge of the issues affecting the psychology of those involved and communication at strategic, operational and tactical level is a key aspect of an effective response. Mastering emergency communication is essential to avoid the spread of incorrect or inappropriate information that may cause, panic or lead the population to underestimate the gravity of the situation. Thus, Raising Awareness in the population is another fundamental aspect on which emergency communication and psychology are focused.

This session is aimed at bringing together researchers and experts in the following fields:

- **Emergency Communication and Information**
- **Emergency Psychology**
- **First Response in Case of CBRNE Events**
- **Raising Awareness**

**CHAIRMAN | Amer Hosin**

Senior Academic Advisor, Emergency and Public Safety Department, ADP, GHQ  
(United Arab Emirates)

**CO-CHAIRMAN | Ferruccio Di Paolo**

Ministry of Interior, Department of Fire Brigades (Italy)

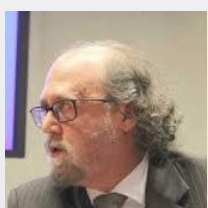

## ORAL PRESENTATIONS

**Amer Hosin** (Invited Speaker)

Senior Academic Advisor, Emergency and Public Safety Department, ADP, GHQ  
(United Arab Emirates)

**Victims reactions and psychological trauma in emergency and disaster settings**

**Ferruccio Di Paolo** (Invited Speaker)

Ministry of Interior, Department of Fire Brigades (Italy)

**Psychology and Communication during CBRNE events**

**Abdulla Al Hmoudi**

Head of Training Department, Emergency and Public Safety Department, ADP, GHQ. (United Arab Emirates)

**Early warning communication in disaster**

**Holly E. Carter (1)**, J. Drury (2), G. J. Rubin (3), R. Williams (4) and R. Amlot (5).

(1) Researcher, Public Health England, Behavioural Science Research Team, Salisbury (UK)

(2)University of Sussex, School of Psychology, Falmer, Brighton, (UK)

(3) King's College London, Department of Psychological Medicine, London, (UK)

(4) University of South Wales, Welsh Institute for Health and Social Care, Cardiff and Pontypridd (UK) (5) Public Health England, Behavioural Science Research Team, Porton Down, Salisbury, (UK).

**How crowd psychology can improve public compliance and cooperation during mass decontamination: implications for public behaviour during a CBRN incident**

**Luca Rotondi (1)**, M. Zuddas (1)

International Master ISSMM Student, Faculty of Medicine and Surgery, University of Rome Tor Vergata, Rome, (Italy)

**Deaf communication techniques in a big natural disaster: the experience of the Amatrice Earthquake**

## SESSION OPEN

**Submit your Contribution to SICC 2017 conference. Join this session!**

# SESSION 9 - CBRNE-RELATED GEOPOLITICAL ISSUES

Wednesday, 24 May 2017 (10:00 - 16:00)

In an ever changing international scenario, with non-conventional and CBRNE threats on the rise, the need for Global Partnership focused on Safety and Security is essential. Cooperation among international entities is a key aspect of the preparedness and ability to counteract CBRNE events, whose effects could often cross borders, jeopardizing the safety of the population of different countries.

Non-Proliferation and Disarmament initiatives are a fundamental means in reducing the risks connected to the proliferation and potential use of CBRNE agents. International Response Systems allow improved public Safety and Security in these situations.

This session is aimed at bringing together researchers and experts in the following fields:

- **Non-Proliferation and Disarmament;**
- **International Cooperation and Response;**
- **Global Partnerships for Safety and Security;**
- **Evolution of the CBRNE Threats;**
- **Terrorist Threats;**
- **Improvised Explosive Device (IED), Explosives Ordinance Disposals (EOD), Non-Conventional Threats (NCT)**
- **Explosives and Dirty Bombs;**
- **Dual Use.**

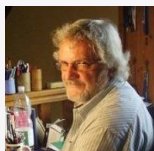

**CHAIRMAN | Maurizio Martellini**

Associate Professor of Physics, University of Insubria (Italy)

**CO-CHAIRMAN | Krzysztof Paturej**

Ambassador, Director of the International Centre for Chemical Safety and Security - ICCSS (Poland)

**CO-CHAIRMAN | Ralf Trapp**

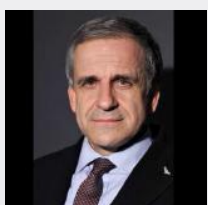

International Disarmament Consultant, Chessenz (France)

## ORAL PRESENTATIONS

**Jim Welch** (Invited Speaker)  
Executive Director - Elizabeth R Griffin  
Research Foundation (USA)

**Linking High Reliability  
Organizations**

**Maurizio Martellini** (Invited Speaker)  
Associate Professor of Physics, University  
of Insubria (Italy)

**The CBRNE security paradigm  
as new formal institution**

**Krzysztof Paturej**

Ambassador, Director of the International Centre for Chemical Safety and Security- ICCSS (Poland)

**The role of ICCSS to improve the chemical emergencies**

**Igor Khripunov**

Center for International Trade and Security At University Of Georgia. (USA)

**Human Factor and Biorisk Management: Culture Assessment and Enhancement**

**Naeem Haider**

PhD, Brigadier at Arms Control & Disarmament Affairs Branch, Strategic Plans Division, Chaklala garrison, Rawaplindi, Punjab, (Pakistan)

**CWC & BWC: Orienting to emerging Chem-Bio risks and threats**

**William So**

PhD, Policy & Program Specialist, United States Federal Bureau of Investigation (FBI) Weapons of Mass Destruction Directorate, Biological Countermeasures Unit, Washington, DC, (USA)

**The Convergence of Security, Science, and Safety**

**Jayant Sangwan**

United Nations Interregional Crime and Justice Research Institute (UNICRI), CBRN Risk Mitigation and Security Governance Programme, Viale Maestri del Lavoro, 10 - 10127, Turin, Piedmont, (Italy)

**CBRN International Legal Framework and Needs Identified by Partner Countries**

M. Barbeschi (1), Irina Zastenskaya (2), D. Nirzan (3), F. Cerutti (1), E. Paunovic (2) (1) World Health Organization, Geneva, Switzerland. (2) WHO European Centre for Environment and Health, Bonn, Germany. (3) WHO Regional Office for Europe, Copenhagen, Denmark

**Public health in the center of global agendas for disasters and emergencies risk reduction**

E. Bergamini (1), F. Jacobone (2), **Donato Morea (3)**, G.P. Sciortino (4)

(1) University of Rome Tor Vergata,  
Department of Enterprise Engineering,  
Via del Politecnico, 1, 00133, Rome, (Italy)

(2) University of Roma Tre, Department  
of Engineering, Via della Vasca Navale,  
79/81, 00146, Rome, (Italy)

(3) University of Rome Tor Vergata,  
Department of Industrial Engineering, Via  
del Politecnico, 1, 00133, Rome, (Italy)

(4) Shortman Consultants, Via Enrico  
Glori, 40, 00137, Rome, (Italy)

**The increasing risk of space  
debris impact on Earth: case  
studies, potential damages,  
international liability  
framework and management  
systems**

**Kalimi M. Mwoira**  
Ambassador (South Africa)

**Title TBD**

# SESSION 10 - CBRNE CENTERS OF EXCELLENCE - COE

Wednesday, 24 May 2017 (10:00 - 16:00)

CBRNE is a multidisciplinary domain that requires a joint effort to bring together expertise and knowhow in order to address this threat from a comprehensive and effective perspective. A number of initiatives have been promoted from international organizations like NATO and the European Union, to create Centres of Excellence (COE) in the field of CBRNE.

The role of such centres ranges from providing strategic, operational and tactical advice for defence, to the establishment and strengthening the institutional capacity to mitigate CBRNE risks.

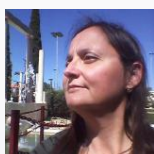

The session is aimed at bringing together stakeholders, experts and researchers in the following fields:

- **CBRN Programmes**
- **Research & Innovation**
- **Risk Assessment and Management**
- **Defence**
- **Training**
- **Policies**

**CHAIRMAN | Volker R. Quante**

Deputy Director & DEU Senior National Representative, Joint CBRN Defence Centre of Excellence (Czech Republic)

**CO-CHAIRMAN | Margarita Goulart**

Nuclear Safety and Security Unit, European Commission Directorate-General Joint Research Centre (Belgium)

**CO-CHAIRMAN | Stefano Giribono**

Colonel, 7th CBRN Defense Regiment Commander, Italian Army (Italy)

## ORAL PRESENTATIONS

**Margarita Goulart** (Invited Speaker)  
Nuclear Safety and Security Unit,  
European Commission Directorate-  
General Joint Research Centre (Belgium)

**COE effective solutions to  
reduce CBRNE risks**

**Volker R. Quante**  
Deputy Director & DEU Senior National  
Representative, Joint CBRN Defence  
Centre of Excellence (Czech Republic)

**Knowledge Management  
and other Scientific Aspects  
of CBRN Defence from a  
Practitioner's Perspective**

**Stefano Giribono (1)**, D. Del Gaudio (2)  
 (1) Colonel, 7th CBRN Defense Regiment  
 Commander, Italian Army (Italy)  
 (2) 7th CBRN Defense Regiment -  
 Technical Support Section Chief, Italian  
 Army (Italy)

**7th CBRN Defense Regiment  
 - Capabilities, tasks, main  
 systems and equipment**

**Shaun A. Forth (1)**, S. Johnson(2), S. J.  
 Burrows(1), R. P. Sheldon (3)  
 (1) Centre for Simulation & Analytics,  
 Cranfield University, Defence Academy  
 of the United Kingdom, Shrivenham, SN6  
 8LA, (UK)  
 (2) Cranfield Forensic Institute, Cranfield  
 University, Defence Academy of the  
 United Kingdom, Shrivenham, SN6 8LA,  
 (UK)  
 (3) Centre for Defence Engineering,  
 Cranfield University, Defence Academy  
 of the United Kingdom, Shrivenham, SN6  
 8LA, (UK)

**Cranfield University Centre  
 of Excellence in Counter-  
 Terrorism**

**Salvatore Corrao**  
 Department o Fire Brigades, Ministry of  
 Interior, Via Genova, Roma, (Italy)

**The activities of Italian Fire  
 Brigades to reduce the CBRNe  
 risks in big events, such as  
 Jubilee**

**Stefania Fiore** and E. Occhiuzzi  
 Italian National Fire and Rescue Service,  
 Central Directorate of Emergency and  
 Technical Rescue, Piazza del Viminale,  
 Roma, (Italy)

**Italian National Fire and Rescue  
 Service: CBRNe Emergency  
 Response and National Civil  
 Defence**

**Raffaele Zagarella** and R. Santaguida  
 Joint Center for Military Studies and  
 Applications, CISAM, Via della Bigattiera -  
 Pisa. (Italy)

**The Activities of CISAM for  
 radiation safety in the Armed  
 Forces**

## SESSION OPEN

## SESSION 11 - BIOLOGICAL AND CHEMICAL SAFETY AND SECURITY, PROTECTION AND DECONTAMINATION

Wednesday, 24 May 2017 (10:00 - 16:00)

Biological and Chemical agents are widely used in the industrial world; they are often easily available on the open market and therefore may be used deliberately to cause harm, and have been often used as warfare agents. Under this premise, it is clear how important Biological and Chemical Safety and Security are for first responders and other involved professionals, civilian and military organizations and the population. Risk reduction can be achieved by both enhancing the protection of the actors involved and constantly improving the decontamination systems. PPE and CPE, innovative materials, technologies and systems, engineering applications, experimental and applied physics and technical challenges related to CBRNE will be discussed in this section.

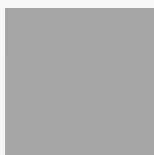

This session is aimed at bringing together researchers and experts in the following fields:

- **CBRNE Contamination and Decontamination**
- **Experimental and Applied Physics for CBRNE Agents Decontamination, Protection, Risks Reduction**
- **Engineering Applications for CBRNE Agents Decontamination, Protection, Risks Reduction**
- **Technical Challenges on CBRNE**
- **Chemical Safety & Security**
- **Biosecurity and Biosafety**
- **CBRNE Research & Innovation**
- **Personal Protective Equipment (PPE) Materials, Technologies and Systems**
- **Collective Protective Equipment's (CPE) Materials, Technologies and Systems**
- **Nanotechnologies and Nanomaterials for Safety & Security**
- **Innovative materials for CBRNE Applications**

**CHAIRMAN | Cornelius Bartles**

Deputy Head Global Biosecurity – GBS for the Robert Koch Institute (Germany)

**CO-CHAIRMAN | Florigio Lista**

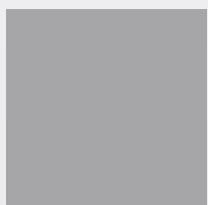

Col., Centro studi e ricerche di sanità e di veterinaria dell'esercito (Italy)

## ORAL PRESENTATIONS

**Cornelius Bartles** (Invited Speaker)  
Deputy Head Global Biosecurity – GBS for the Robert Koch Institute (Germany)

**The Robert Koch Institute Role in the CBRNe protection**

**Florigio Lista**  
Col., Centro studi e ricerche di sanità e di veterinaria dell'esercito (Italy)

**Title TBD**

**Piergianni Medaglia**

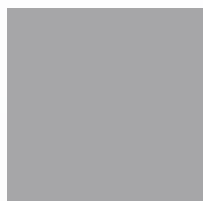

Researcher in Material Physics at the Department of Industrial Engineering, University of Rome Tor Vergata (Italy)

**The role of ICCSS to improve the chemical emergencies**

**Klara Kubelkova**, A. Myslivcova Fucikova, M. Schmidt, A. Macela, J. Stulik. University of Defense, Faculty of Military Health Sciences, Department of Molecular Pathology and Biology (Czech Republic)

**Investigation of microbial-host interactions for development of decontamination and biodefence strategies**

**Kithalawaarachchi Samantha K. (1)**, K.A.T. Kumara (2), D. Jayalath, Dinidu Jayalath (3)  
(1) Director Presidential Task force on Drug Prevention and Disaster Management, Presidents office (Sri Lanka) (2) Medical officer Disaster Management coordinator Teaching Hospital, Polonnaruwa (Sri Lanka) (3) GIS officer Ministry of Environment, (Sri Lanka)

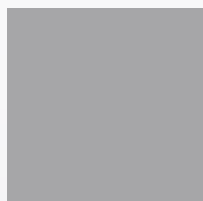

**Development of MIC Real-Time PCR for Detecting Four Major Biological Weapons**

**Miah Basher Abul**

(1) Acting President, Bangladesh Chemical Society (Bangladesh)

**Chemical Safety & Security best practices in Bangladeshi Industries**

**Lei Mei-ling (1)**, Xi Hai-ling (1), Han Shi-tong (1) Zhong Jin-yi (1)  
(1) State key laboratory of NBC protection for civilian, P.O.Box 1043 Beijing (China)

**Reaction process of sulfur mustard in O/W microemulsion media**

**Alhmoudi Abdulla Ali**

United Arab Emirates , Abu Dhabi Police – CBRN Unit Team. (United Arab Emirates)

**CBRN Innovation Lab**

A. Cirigliano (1), R. Negri (1) and **Teresa Rinaldi (1)(2)\***

(1) Department of Biology and Biotechnology "Charles Darwin", La Sapienza University of Rome, Italy.  
(2) Italian Army, Ministry of Defence, Italy.

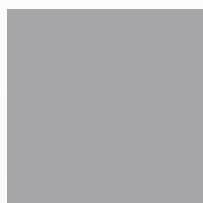

**Dual-use molecules from yeast**

**José L. Pérez-Díaz(1)**, Y. Qin(2), O. Ivanov(3), J. Quiñones (4), V. Stengl (5), K. Nylander (6), W. Hornig (7), J. Álvarez (8), E. Ruiz-Navas (9) and K. Mazanec (10)

1. Escuela Politécnica Superior, Universidad de Alcalá, (Spain)  
 2. University of Strathclyde, (United Kingdom)  
 3. Bulgarian Academy of Science, (Bulgaria)  
 4. Centro de Investigaciones Energéticas y Medioambientales (CIEMAT), (Spain)  
 5. Institute of Inorganic Chemistry, Academy of Sciences of Czech Republic. (Czech Republic.)  
 6. Consilium Marine and Safety AB, (Sweden)  
 7. BPE e.K., (Germany)  
 8. European Association of Railway Personnel (AEC)-section of Spain, (Spain)  
 9. Universidad Carlos III de Madrid (Spain)

**Device for Large Scale Fog Decontamination: COUNTERFOG**

**Wen Zhu (1)**, S. S. Razia (2), M. S. Mannan (1)

(1) Mary Kay O'Connor Process Safety Center, Artie McFerrin Department of Chemical Engineering, Texas A&M University, College Station, (USA)  
 (2) Department of Chemical Engineering, Bangladesh University of Engineering and Technology, (Bangladesh)

**Security Vulnerability Analysis (SVA) of a Chemical Management System**

## SESSION OPEN

# SESSION 12 - DETECTION AND IDENTIFICATION

Wednesday, 24 May 2017 (10:00 - 16:00)

Rapid detection and identification of biological and chemical agents represent one of the major challenges today. The presence of environmental chemical and biological pollutants, arising from industrial and research facilities, may prohibit the use of some techniques that are used for the detection and identification of Chemical Warfare and Biological Warfare Agents.

This session examines the latest techniques that can be employed to detect and identify both civilian and military materials.

Particularly, the session is aimed at bringing together researchers and experts in the following fields:

- **CBRNE Detection and Identification Techniques and Methods**
- **Stand-on and Stand-off Detection and Identification Technologies**
- **Experimental and Applied Physics for CBRNE Detection and Identifications**
- **Engineering Applications for CBRNE Detection and Identifications**
- **Technical Challenges on CBRNE Explosive Detectors**
- **Field Sampling & Analysis**
- **Physics Applied to Safety and Security Issues**

**CHAIRMAN | Milica Marčeta Kaninski**

Researcher at University of Belgrade, Vinča Institute of Nuclear Sciences (Serbia)

**CO-CHAIRMAN | Pasqualino Gaudio**

Researcher in Experimental Physics Department of Industrial Engineering, University of Rome Tor Vergata (Italy)

**CO-CHAIRMAN | Antonio Palucci**

Senior Researcher, ENEA, Frascati Research Centre (Italy)

## ORAL PRESENTATIONS

**Ten.Gen. Ing. Francesco Castrataro**

(Invited Speaker)

Head of the Italian Army Engineers Corp, Terrestrial Armaments Director (Capo di Corpo degli Ingegneri dell'Esercito, Direttore degli Armamenti Terrestri)

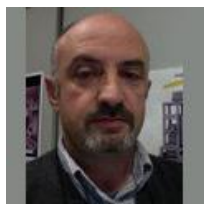

**Detection of Biological Warfare Agents using UV Laser Induced Fluorescence (LIF)**

**Milica Marčeta Kaninski** (Invited Speaker)

Researcher at University of Belgrade, Vinča Institute of Nuclear Sciences (Serbia)

**Title TBD**

**Pasqualino Gaudio**

Researcher in Experimental Physics Dep. of Industrial Engineering, University of Rome Tor Vergata (Italy)

**Standoff detection and identification of chemical agents by LIDAR and DIAL techniques**

**Antonio Palucci**

Senior Researcher, ENEA, Frascati Research Centre (Italy)

**Proximal and/or Stand-off detection of threats are demanding challenges in CBRNE**

**Vladimir Nikolic**, M. Marčeta Kaninski, M. Tošić, Ž. Nikolić, D. Milovanović, T. Brdarić  
University of Defense, Faculty of Military Health Sciences, Department of Molecular Pathology and Biology (Czech Republic)

**Detection and identification of the warfare agents in different matrices by capillary column electron impact GC-MS**

**Maria Pilar Pina**

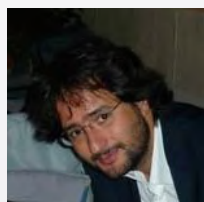

Researcher at the Nanoscience Institute of Aragon. Dep. of Chemical & Environmental Engineering, Zaragoza (Spain)

**Real time detection of CWA simulants in gas phase by SERS**

**Sergey Babichenko (1)**, A.S. Piette (2), L. Poryvkina (1), O. Rebane (1), B. Smits (2), I. Sobolev (1), N. Soboleva (1), J.L.Gala (2)  
(1) LDI Innovation, 12 Lohu, Tallinn, (Estonia)  
(2) Center for Applied Molecular Technologies, Institute of Clinical and Experimental Research, Université catholique de Louvain, Clos chapelle-aux-champs, Brussels, (Belgium)

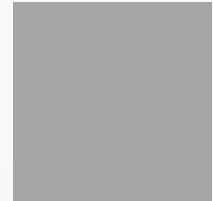

**Stand-off detection of microbial contamination**

**Angelo Minotti**

Researcher and DUAL-USE expert, University of Rome La Sapienza (Italy)

**A novel micro propulsion system to enlarge NANOSATs applications to CBRNe identification**

	<p><b>Eleftheria Dossi (1)</b>, Mogens H. Jakobsen (2), Jan Larsen (3), Lina Lässig (4), Sol Tatlow (5), Lars Sandström (6), Ole T. Buus (3), Lasse L. # POSTER SESSION 1

Monday, 22 May 2017 (12:30 – 14:00)

## Presenter and Co-Authors

	<b>P1.1</b>	<b>Some of the major issues to be addressed for the detection of the environmental presence of CBRNe agents</b>
	<b>Paolo Castelli</b>	
	Ministry of Interior, Department of Fire Brigades (Italy)	
	<b>P1.2</b>	<b>Proposal of benchmark guidance values in surface microbiological monitoring: a literature review</b>
	<b>Raffaella Giovinnazzo*</b> , L. Caradonna, G. Giaquinta, E. Guerrera, M. Mameli, A. Mansi, G. Marena, T. Mastromartino, D. Sarto, P. Tomao.	
	*INAIL - Consulenza Tecnica Accertamento Rischi e Prevenzione, Dipartimento di Medicina, Epidemiologia, Igiene del Lavoro e Ambientale	
	<b>P1.3</b>	<b>Earthquakes could be generated by nuclear fusion of the hydrogen present in the ground</b>
	<b>Roberto Paoletti*</b>	
	*Senior engineer (Executive – Deputy Manager) of the Ministry of the Interior – Fire Department	
	<b>P1.4</b>	<b>Development of MIC Real Time PCR for Detecting Four Major Biological Weapons</b>
	Min-jeong Kim, Hyunwook Cha, Minsu Ko, and <b>Gyu-Cheol Lee*</b>	
	*Water Quality Research center, K-water, Republic of Korea	
	<b>P1.5</b>	<b>Duplex Real-time PCR assay for Simultaneous Detection of Acanthamoeba spp. and Naegleria fowleri in Raw Water</b>
	<b>Min-jeong Kim*</b> and Gyu-Cheol Lee	
	*Water Quality Research center, K-water, Republic of Korea	
	<b>P1.6</b>	<b>Development of radiation detection methods against radiological or nuclear threat</b>
	<b>Ken'ichi Tsuchiya</b> , K. Kurosawa, N. Akiba, H. Kakuda, D. Imoto, M. Hirabayashi, K. Kuroki	
	National Research Institute of Police Science, Physics section, 6-3-1 Kashiwanoha, CHIBA, (Japan)	

	<b>P1.7</b>	<b>The potential of Italian Fire Brigade for the immediate securing of the environment, which is essential for the containment of environmental damage as a result of CBRNE incidents</b>
	<b>Stefano Venturini</b>	
	Ministry of Interior, Department of Fire Brigades (Italy)	
	<b>P1.8</b>	<b>A novel concept for integrated environmental surveillance and protection</b>
	<b>Vito Volpetti(1)</b> , F. Barcio (1)	
	(1) TEKNE s.r.l. - Defence & Security Division, via E.Mattei 20, 66100 Chieti, (Italy)	
	<b>P1.9</b>	<b>The e-factor in Industrial Risk: Predict and Prevent through Experiments</b>
	<b>Yasmin Himid (1)</b> , R. Rossi (1) and A. Malizia (2)	
	(1) Department of Industrial Engineering, University of Rome "Tor Vergata", Rome, (Italy) (2) Department of Biomedicine and Prevention, University of Rome "Tor Vergata", Rome, (Italy)	
	<b>P1.10</b>	<b>Applying Incident Command System (ICS) to the Command and Control of Bioterrorist Attack Response in Taiwan</b>
	<b>Tzu-Yun Huang (1)</b> , Yu-Ju Lin(1), Yi-Chien Chih(1), Shu-Mei Chou(1), Chang-Hsun Chen(1)	
	(1) Centers for Disease Control, No.6, Linsen S. Rd., Jhong-gjheng District, Taipei, Taiwan (R.O.C). (Taiwan)	
	<b>P1.11</b>	<b>Variations in fluorescence spectra of a bacterial population during different growth phases</b>
	<b>Lea Fellner (1)</b> , F. Gebert (1), A. Walter (1), K. Gruenewald (1), F. Duschek (1)	
	German Aerospace Center, Institute of Technical Physics, Langer Grund, Lampoldshausen, 74239 Hardthausen, (Germany)	
	<b>P1.12</b>	<b>Comparison of classification models for spectral data of laser-induced fluorescence</b>
	<b>Marian Kraus (1)</b> , Lea Fellner (1), Florian Gebert (1), Karin Grünewald (1), Carsten Pargmann (1), Arne Walter (1), Frank Duschek (1)	
	German Aerospace Center, Institute of Technical Physics, Langer Grund, Lampoldshausen, 74239 Hardthausen, (Germany)	

	<p><b>P1.13</b></p> <p><b>Patrick Wengler (1)</b>, Cenciarelli O. (2), Ludovici G.M. (3)</p> <p>(1) Luxemburg Grand-Ducale Police, UCPA /SGA, L-1110 Findel (Luxemburg) Phd candidate, London Metropolitan University (2) University of Rome "Tor Vergata", Department of Industrial Engineering, Via del Politecnico 1, Rome, Italy (3) University of Rome "Tor Vergata", International Master Courses in Protection Against CBRNe events, Rome, Italy</p>	<b>First Responders Pocket-Card, 9 liner</b>
	<p><b>P1.14</b></p> <p><b>Francesco Rosiello (1)</b>, Monti M. (2), Modini C. (1), Russo L. (1), Zelinotti L.(3), Vinci A. (1)</p> <p>(1) Sapienza-University of Rome, Via del Policlinico 155, Rome, Italy (2) USL Umbria 1, Via G. Guerra 21, Perugia, Italy (3) Istituto Zooprofilattico Lazio, Via Appia Nuova, 1411, Roma, Italy</p>	<b>Is Rome ready to react to CBR-Ne attacks?</b>
	<p><b>P1.15</b></p> <p><b>Tania Martín-Pérez (1)</b>, F. J. Llerena-Aguilar (1) , J. Pérez-Serrano (2), J.L. Copa-Patiño(2), J. Soliveri de Carranza (2), J.M. Orellana-Muriana (3), J.L. Pérez-Díaz (1)</p> <p>1. Escuela Politécnica Superior, Universidad de Alcalá, (Spain) 2. Facultad de Farmacia, Universidad de Alcalá, (Spain) 3. Centro de Experimentación Animal, Universidad de Alcalá, (Spain)</p>	<b>Eco-friendly air decontamination of biological warfare agents using "Counterfog" system</b>
	<p><b>P1.16</b></p> <p><b>Juan Sánchez-García-Casarrubios</b>, F. J. Llerena-Aguilar and J.L. Pérez-Díaz</p> <p>Escuela Politécnica Superior, Universidad de Alcalá, Spain</p>	<b>FOG DYNAMICS</b>

# POSTER SESSION 2

Tuesday, 23 May 2017 (12:00 – 13:30)

## Presenter and Co-Authors

	<b>P2.1</b>	<b>MOF-type materials for nerve agents adsorption on microfabricated preconcentrators</b>
	F. Almazan (1), J. Fantova (1), I. Pellejero (2), M.A. Urbiztondo (3), J. Sese (1), <b>Maria Pilar Pina (1,4)</b> , J. Santamaria (1,4)	
	(1) Nanoscience Institute of Aragon. University of Zaragoza. Department of Chemical & Environmental Engineering, Edif. I+D+i, Zaragoza, (Spain). (2) Institute for Advanced Materials. Public University of Navarra. Edif. Jerónimo de Ayanz, Pamplona-Iruña, (Spain). (3) Centro Universitario de la Defensa. Academia General Militar. Zaragoza, (Spain). (4) Networking Research Center on Bioengineering, Biomaterials and Nanomedicine, Madrid, (Spain).	
	<b>P2.2</b>	<b>DUAL USE, iterated symmetric encryption and the upper limit of 56 bits key length. is it useless?</b>
	<b>Daniele Capolupo (1)</b> , B. d'Amore (1), C. Minotti (1)	
	(1) Sapienza University of Rome, "Faculty of Information Engineering, Informatics, and Statistics", "Department of Computer Science", Rome, (Italy)	
	<b>P2.3</b>	<b>CBRN risk assessment during earthquakes: the Amatrice 2016 earthquake case</b>
	<b>Edoardo Cavalieri d'Oro (1)</b> , M. Pannuti (1), S. Venturini (1)	
	(1) Ministry of Interior, Department of Fire Brigades (Italy)	
	<b>P2.4</b>	<b>Survey on management of environmental disinfection in South Korea hospitals</b>
	<b>Yeongtak Song (1)</b> , Tae Ho Lim (1), Hyunggoo Kang (1), Jaehoon (1), Yoonjae Lee (5), Hyungoo Shin (1), Juncheol Lee (1).	
	(1) Hanyang University, Dept. of Emergency Medicine, 222 Wangsimni-ro, Seongdong-gu, Seoul, Republic of Korea.	

	<b>P2.5</b>	<b>Emerald Cloud: A New Environment to form Intercloud Competitiveness</b>
	A. Jahanbani(1), A. Khosravi (2), <b>Soheila Heidari (3)</b>	
	(1) Sapienza University of Rome, Department of Computer, Control and Management Engineering, Rome, (Italy). (2) Sapienza University of Rome, DIPARTIMENTO DI INGEGNERIA AERONAUTICA, ELETTRICA ED ENERGETICA, Rome, (Italy). (3) Sapienza University of Rome, Dipartimento di Studi europei, americani e interculturali, Rome, (Italy).	
	<b>P2.6</b>	<b>Dirty bomb Drones, Urban surveillance and Explosive/ Radiological materials supply chain regulation's challenges in the Age of Globalization</b>
	<b>Pietro Rossetti (1)</b> , G. Calabresi (2), N. S. Genco (3), C. Rossetti (3), S. Scolari (4)	
	(1) University of Rome Tor Vergata, Rome, (Italy). (2) S.T.A.S.A. Studies Center, Rome, (Italy). (3) Italian Air Force, Rome, (Italy). (4) Sapienza University of Rome, Dipartimento di Studi europei, americani e interculturali, Rome, (Italy).	
	<b>P2.7</b>	<b>Crisis managers workload evolution during a crisis situation</b>
	<b>Clément Judek (1)</b> , F. Verhaegen (2), J. Belo (1), T. Verdel (1)	
	(1) GeoRessources, Université de Lorraine, CNRS, CREGU, Mines Nancy, (France) (2) APEMAC (EA4360), Université de Lorraine, 54500 Vandœuvre-lès-Nancy, (France)	
	<b>P2.8</b>	<b>CBRN emergencies: integrated approach to develop innovative technology and training of operators</b>
	<b>Rossella Franconi (1)</b> , A. Testa (1), V. Lopresto (1), R. Pinto (1), R. Turchi (1), E. Illiano (1, 2), S. Massa (1), C. Patrono (1), V. Palma (1), A. Rinaldi (1, 2), A. Giovanetti (1), C. Marino (1)	
	(1) ENEA, Casaccia Research Center, Department for Sustainability, Casaccia, Rome, (Italy) (2) NANOFABER s.r.l, Rome, (Italy)

# SUPPORTED BY

Società Chimica Italiana  
Divisione di Spettrometria  
di Massa

**We are glad to announce that SICC 2017 conference will be held under the auspices of the Division of Mass Spectrometry (DMS) of the Italian Chemical Society.**

Founded in 1971, the Division of Mass Spectrometry aims to bring together experts in mass spectrometry, favoring the spread and strengthening of science, technology, and education of this discipline through publications, conferences, courses, workshops and other initiatives in Italy and internationally, in collaboration with public and private research institutions, and with a great attention to young people through the institution of theoretical and practical courses, awards, and scholarships.

AICA (Associazione Italiana per l'Informatica ed il Calcolo Automatico), the Italian association for computer and computational sciences, is a non-profit association of Information and Communications Technology (ICT) professionals. Its goal is to help the development of digital knowledge in Italy: spreading the digital culture and constructing a digital society are essential steps towards the progress of our community. Since 1961 AICA facilitates the development of computer skills in all the relevant scientific, technological, economic and social applications. Also, AICA coordinates the qualification and certification of computer skills in Italian schools and workplaces.

AICA represents the ICT Professionals of Italy and it is associated with:

- CEPIS (Council of European Professional Informatics Societies)
- IFIP (International Federation for Information Processing)
- ECDL Foundation (European Computer Driving License Foundation)
- IT STAR (Regional ICT Association in Central, Eastern & Southern Europe)
- European CIO Association

The AICA members have the possibility to **register to the SICC 2017 conference selecting the "Governmental Employees" reduced registration fee**. Also, we will **waive the publication costs of the full paper** to AICA members (please note that for every other participant the "Governmental Employees" reduced fee does not include the paper publication). Find more details in this section of the website. Also, we would remember that Students are eligible for a further reduction.

**The SICC 2017 Conference is reported in the CBRN Network of Excellence website.** CBRN Network of Excellence is an initiative of the Netherlands Organisation for Applied Scientific Research TNO, the National Institute for Public Health and the Environment RIVM and the Netherlands Forensic Institute NFI. The aim of the CBRN Network of Excellence is to set up an –international– CBRN Network of Excellence and to stimulate research and innovation by mobilizing knowledge, expertise and experience in the area of CBRN and by bringing together both (government) organizations, knowledge institutes and commercial companies.

# WHY ATTEND SICC 2017 & ABOUT

## MEET

Worldwide Public, Military, Private, Research and Academic CBRNE experts.

## LEARN

Different approaches to the CBRNE safety&security.

## VISIT

One of the most beautiful cities worldwide.

## PUBLISH

Scientific papers in the Conference Proceedings (published by Springer, Scopus indexing).

## TOPICS

Find out all the topics of the event

[here](#)

## ACCOMODATION

Personalized offers and special fares to SICC 2017 participants! Learn more clicking
