International Master Courses in “PROTECTION AGAINST CBRNe EVENTS”

The evolution and increase in Safety and Security threats at an international level place remarkable focus on the improvement of the emergency systems to deal with crisis, including those connected to ordinary and the non-conventional events (Chemical, Biological, Radiological, Nuclear, and explosives).

In every industrial Country there are multiple entities with specialized teams in very specific fields, but the complexity of the events requires professionals that not only have specific know-how, but also expertise in the relevant areas.

Given the global interest in these issues, the Department of Industrial Engineering and the Faculty of Medicine and Surgery of the Tor Vergata University organize the international Master Courses in “Protection against CBRNe events”: I Level Master Course in “Protection against CBRNe events” (120 ECTS) and II Level Master Course in “Protection against CBRNe events” (60 ECTS). These courses aim at providing attendees with comprehensive competences in the field of CBRNe Safety and Security, through teaching and training specifically focusing on real needs.

The creation of the “Click & Read” newsletter, that connects directly to the International CBRNe Master website simply clicking on the blue titles of each news, would be a monthly appointment about the main news around International CBRNe Master Courses... and more!

Enjoy!!!

It is a pleasure announce that today the First Level Master Course in Protection Against CBRNe events (#MasterCBRN) (II Cycle- A.Y 2015/2016 - 2016/2017) has been successfully completed by the second group of students:

- Salem Alkaabi (#ABUDHABIPOLICE)
- Sultan Alkaabi (#ABUDHABIPOLICE)
- Salem Alrashdi (#ABUDHABIPOLICE)
- Abdulla Alsheraifi (#ABUDHABIPOLICE)
- Castelli Paolo (#VigilidelFuoco)
- De Maio Claudio (#VigilidelFuoco)
- Del Gaudio Daniele (#EsercitoItaliano)

Greetings to all of you from the Directive and Didactic Board.

[12.15.2017 - First Joint Activity of the eNOTICE project](#) ["European Network Of CBRN Training Centers"](#)

#eNOTICE is a project funded in the context of the H2020 framework program by the #European Commission as part of the call for proposals under the "Secure societies".

The project main objective is to build a dynamic, functional and sustainable pan European network of CBRN training centers, testing and demonstration sites (CBRN TC) strengthening capacity building in training and users-driven-innovation and research, based on well-identified needs.

For this reason the eNOTICE consortium includes a well-balanced group of 13 partners from 9 European Countries with complementary skills (the complete list available at: <https://www.h2020-enotice.eu/>) and meet back-to-back to the project joint activities, including workshops planned for the project duration. The eNOTICE consortium will take profit of these joint activities to meet multiple stakeholders from those already supporting the project, all those from the network of each eNOTICE partner participating in the joint activity, and external invited ones.

Dr. Daniele Di Giovanni as representative of the University of Tor Vergata (UNITOV) and member of the Directive Board of our #MasterCBRN took part to the joint activity organized by #SDIS77 (Service Departemental D'Incendie et de Secours de Seine et Marne) in Gurcy La Chatel, in the context of the project eNOTICE ([read more...](#)).

12.12.2017 - DEPARTMENT OF BIOMEDICINE AND PREVENTION ON THE JOURNAL "IL SOLE 24 ORE"

An interesting article reporting, in two pages, the results and activities of the Department of Biomedicine and Prevention has been published on the Journal "Il Sole 24 ORE". #ILSOLE24ORE

The Department of Biomedicine and Prevention is directed by Prof. Leonardo Palombi that is also the Director of the #MasterCBRN realized in cooperation between the whole Faculty of Medicine and Surgery and the Department of Industrial Engineering of the University of Rome Tor Vergata. Prof. Palombi has added an interesting section about our #MasterCBRN and the award achieved with the OPCW. [Here you can download the pdf version.](#)

[12.11.2017 - Presentate in Senato le proposte dei #MasterCBRNe ed #HESAR](#)

Venerdì 1 dicembre 2017 al #Senato della Repubblica si è tenuta la presentazione delle proposte della Fondazione [#CulturaDemocratica](#) per la prossima legislatura. Tra quelle del tavolo [#Sicurezza](#) e [#Integrazione](#), le due proposte sul CBRNe elaborate con il Direttivo dei [#MasterCBRNe](#) e l'associazione non-profit [#HESAR](#). L'istituzione di un tavolo di lavoro per la stesura di un Testo Unico sul CBRNe. Il riconoscimento di due figure professionali, gli operatori specializzati e i consulenti tecnici a servizio dei decisori in caso di eventi CBRNe.

Il Direttivo dei #MasterCBRN ringrazia @Luca Tritto e tutti i colleghi di #Culturademocratica per questa importante iniziativa.

[12.10.2017 - Speech of Prof. Leonardo Palombi](#)

The international Master Courses in Protection against CBRNe Events at the University of Rome Tor Vergata received the 2017 OPCW-The Hague Award during the 22nd Conference of the State Parties at the World Forum, The Hague, 27 November 2017. The OPCW-The Hague award is a tribute reflecting the honour bestowed upon the OPCW for the 2013 Nobel Peace Prize, to recognise and honour individuals and institutions that have made an outstanding contribution towards the goal of a world permanently free of chemical weapons.

Here the speech of Prof. Palombi during the conference of State Parties:

[12.08.2017 - Civil society organizations at OPCW](#)

Civil society organizations have been a major part of #OPCW's progress over the past two decades in building a world free of chemical weapons. They have been staunch advocates of chemical disarmament and have promoted public understanding of the Chemical Weapons Convention through public outreach, education, and awareness-raising worldwide. This video of interviews of civil society representatives was filmed during the 21st Conference of the States Parties (CSP21) to the Chemical Weapons Convention (#CWC) held at the World Forum, the Hague, the Netherlands, from 28 November to 2 December 2016. In the video:

Luigi Antonio Poggi - Executive Director of the Health Safety Environmental Research Association Rome (HESAR) and member of the #MasterCBRN
