International Master Courses in “PROTECTION AGAINST CBRNe EVENTS”

The evolution and increase in Safety and Security threats at an international level place remarkable focus on the improvement of the emergency systems to deal with crisis, including those connected to ordinary and the non-conventional events (Chemical, Biological, Radiological, Nuclear, and explosives).

In every industrial Country there are multiple entities with specialized teams in very specific fields, but the complexity of the events requires professionals that not only have specific know-how, but also expertise in the relevant areas.

Given the global interest in these issues, the Department of Industrial Engineering and the Faculty of Medicine and Surgery of the Tor Vergata University organize the international Master Courses in “Protection against CBRNe events”: I Level Master Course in “Protection against CBRNe events” (120 ECTS) and II Level Master Course in “Protection against CBRNe events” (60 ECTS). These courses aim at providing attendees with comprehensive competences in the field of CBRNe Safety and Security, through teaching and training specifically focusing on real needs.

The creation of the “**Click & Read**” newsletter, that connects directly to the International CBRNe Master website simply clicking on the blue titles of each news, would be a monthly appointment about the main news around International CBRNe Master Courses... and more!

Enjoy!!!

02.05.2018 - Seminar of Prof. Hosin

It is with a great pleasure that Friday 02/02/2018 the #MasterCBRN host a seminar on "Secondary Traumatization and Mental Health of Staff working in Emergency Settings" held by Prof. Amer Hosin (Professor of Trauma Psychology & Child Psychiatry and Senior Academic Advisor, Emergency and Public Safety Department, ADP, GHQ Abu Dhabi Police).

The seminar, held at the Faculty of Medicine and Surgery under the auspices of the Department of Biomedicine and Prevention and with the scientific introduction of Prof. Leonardo Palombi, has been a success with an important participation of medical doctors, engineers, physics, biologist and CBRNe first responders.

The seminar has been also an occasion to arrange a meeting with the Rector of the University of Rome Tor Vergata, Prof. Giuseppe Novelli, to establish the contents of the cooperation agreement that will be signed in few days regarding research, didactic and training on CBRNe activities under the umbrella of the International Master courses in Protection against CBRNe events.

We took the chance also to arrange a weekend of visits to our wonderful city of Rome.

We are honored to continue this important cooperation with the United Arab Emirates and certify it with a formal cooperation agreement.

STAY TUNED.
